GE Profile™ 30" Slide-In Electric Range

### Dimensions and Installation Information (in inches)

KW Rating	
240V	11.6
208V	8.7
Breaker Size	
240V	40 Amps
208V	40 Amps

**Note:** Cabinets installed adjacent to slide-in ranges must have an adhesion spec of at least 194° temperature rating.

**Note:** 30" ranges conform to U.L. requirements for 0" spacing from adjacent walls below countertops. To reduce possibility of scorching walls, engineering recommends a minimum of 1-1/2" spacing to allow for possible extended, high-heat, no-load heating element operation.

**Receptacle Locations:** For all 30" Slide-In Ranges locally approved flexible service cord or conduit must be used because terminals are not accessible after range installation. See shaded area in drawing for location of electrical outlet locations allow range to be installed directly against rear wall.

## Optional Kits For Slide-In Electric Ranges
